

smso

Syndicat Mixte
Seine Ouest

VISIT BY THE PHILIPPINE DELEGATION

OCTOBER 16, 2025

AGENDA

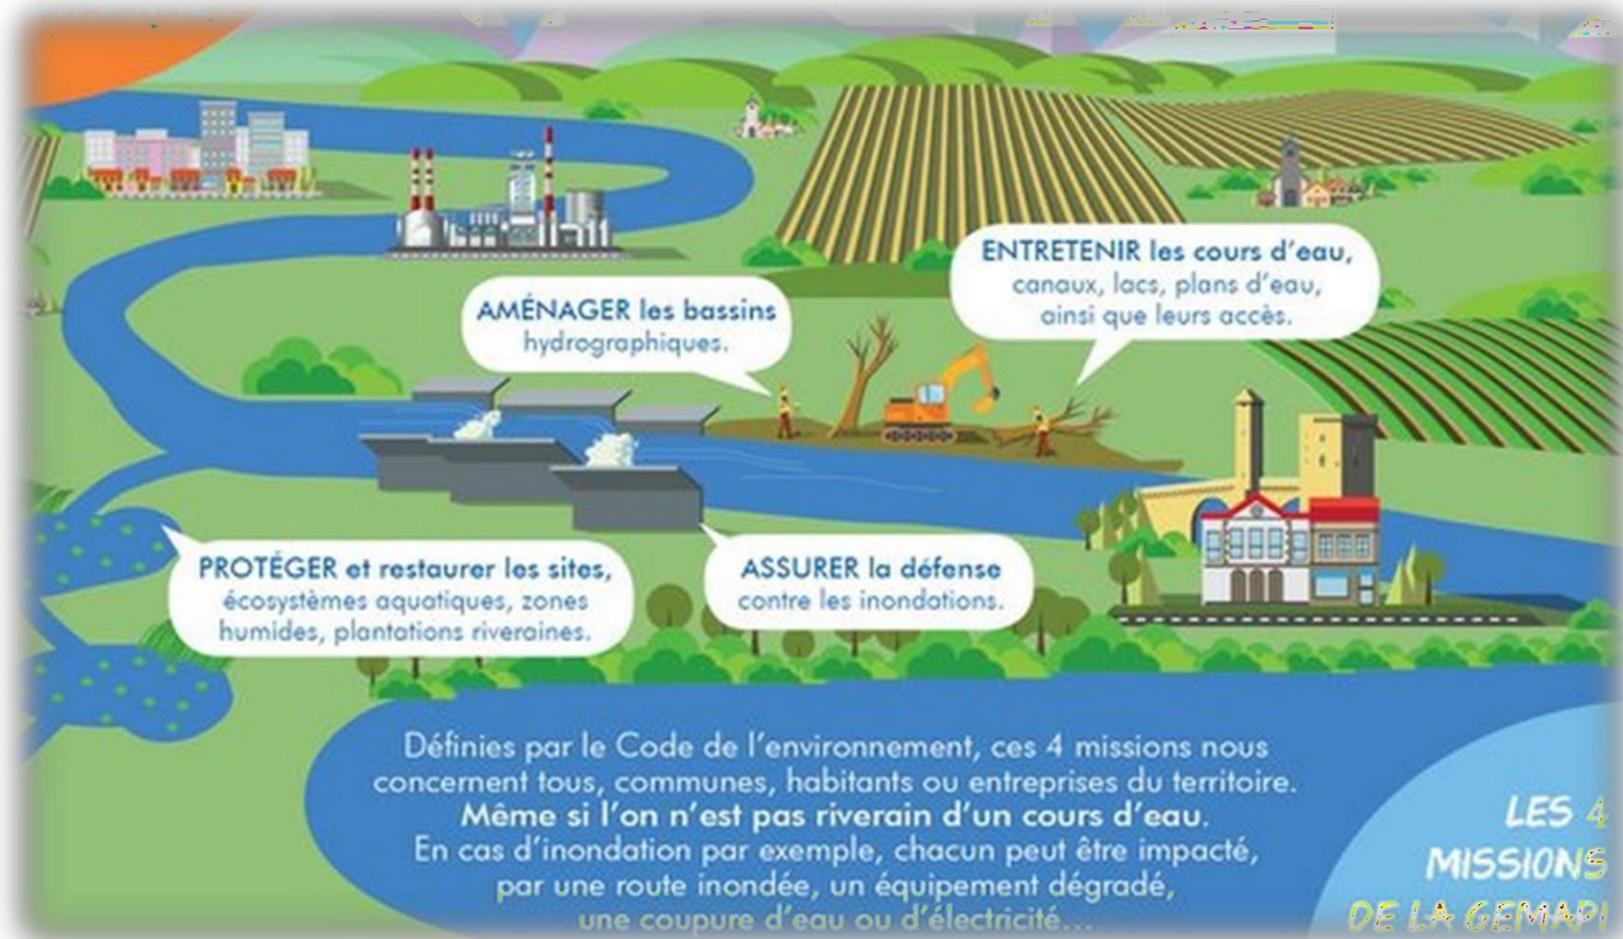

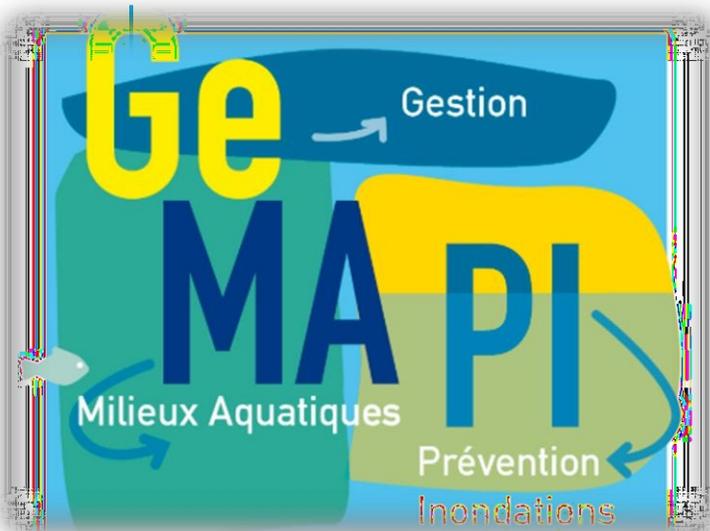

1. PRESENTATION OF THE SMSO

- ✓ Competencies
- ✓ Territory and operations carried out by the SMSO
- ✓ Technical and administrative team
- ✓ Governance

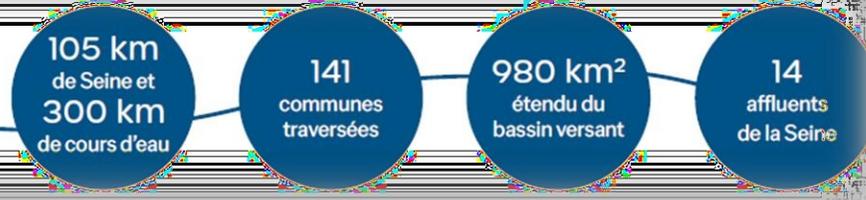

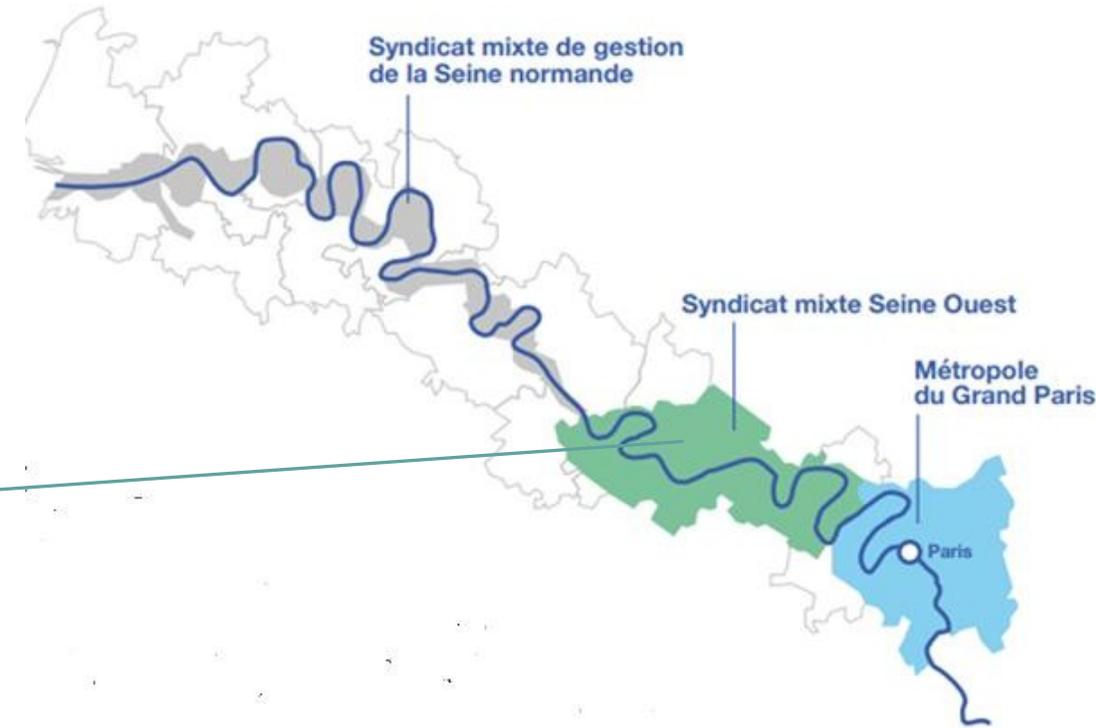

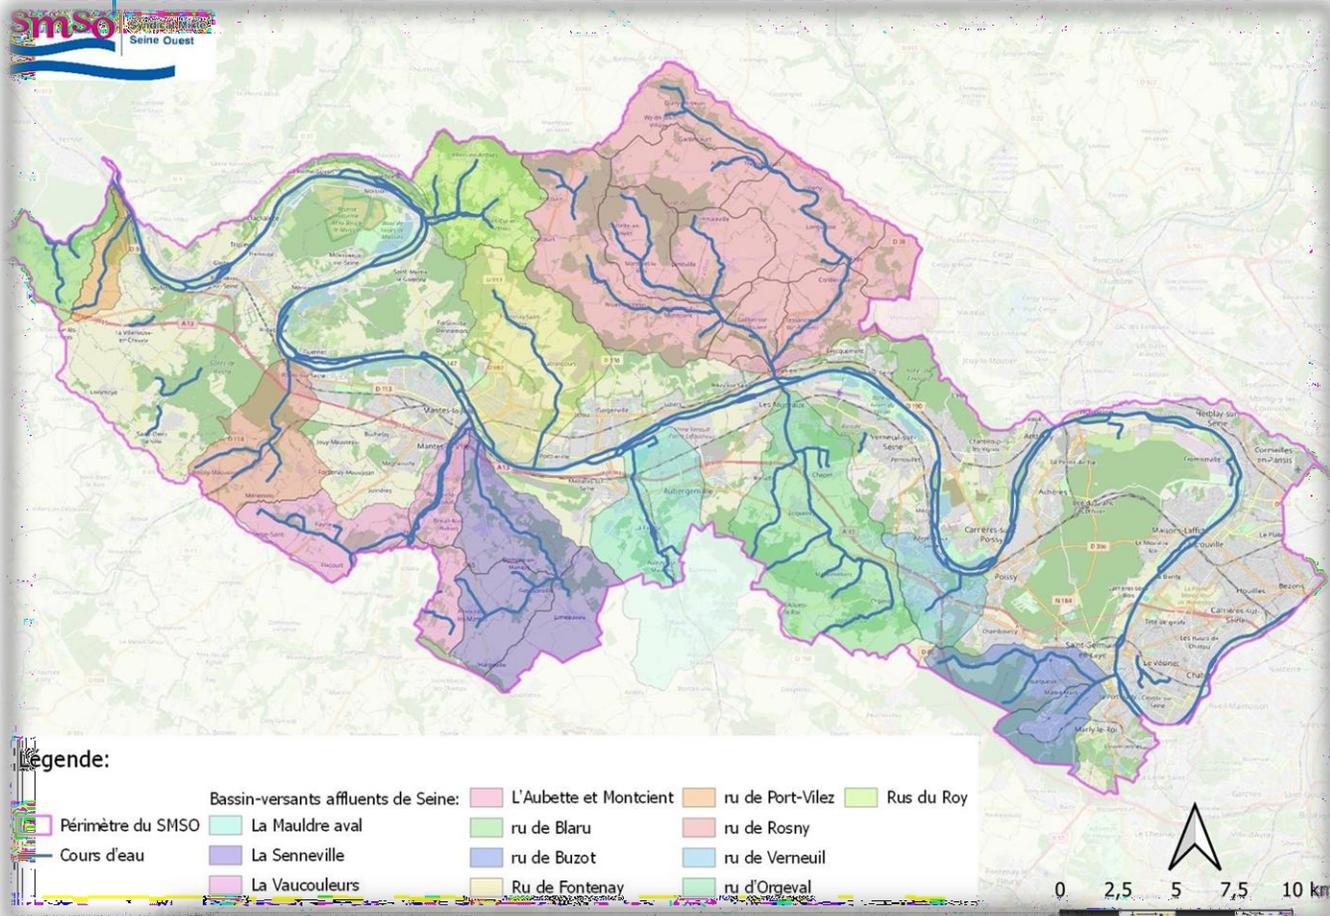

2. FINANCING: OPERATIONS AND INVESTMENT

- ✓ Management tools and financing
- ✓ Gemapi tax
- ✓ Other financing levers: subsidies

1. PRESENTATION OF THE SMSO: RESPONSIBILITIES

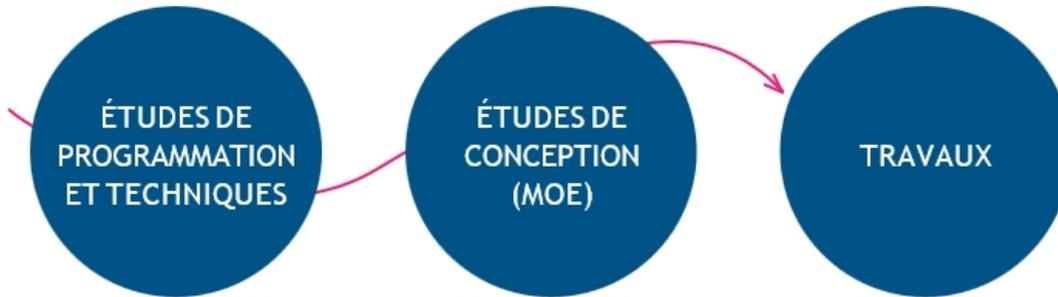

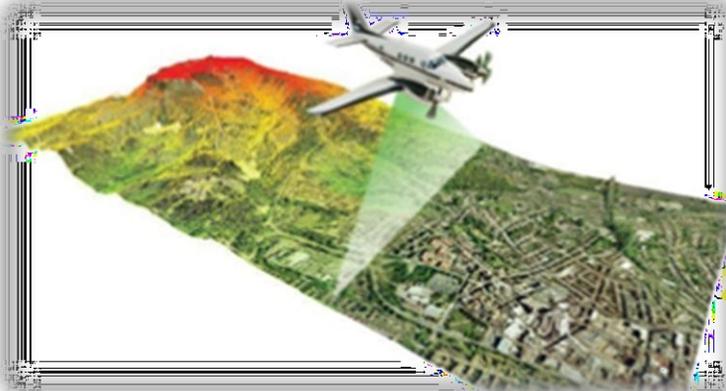

SMSO TERRITORY AND OPERATIONS

Consistency of the watershed with GEMAPI jurisdiction

OPERATIONS

**LIDAR DATA
ACQUISITION
PROCESS**

Études techniques

Investigations

Investigations complémentaires

Validation des aménagements : autorisation

Suivi des travaux

Surveillance, entretien, exploitation des cours d'eau et ouvrages de protection contre inondations

TECHNICAL AND ADMINISTRATIVE TEAM

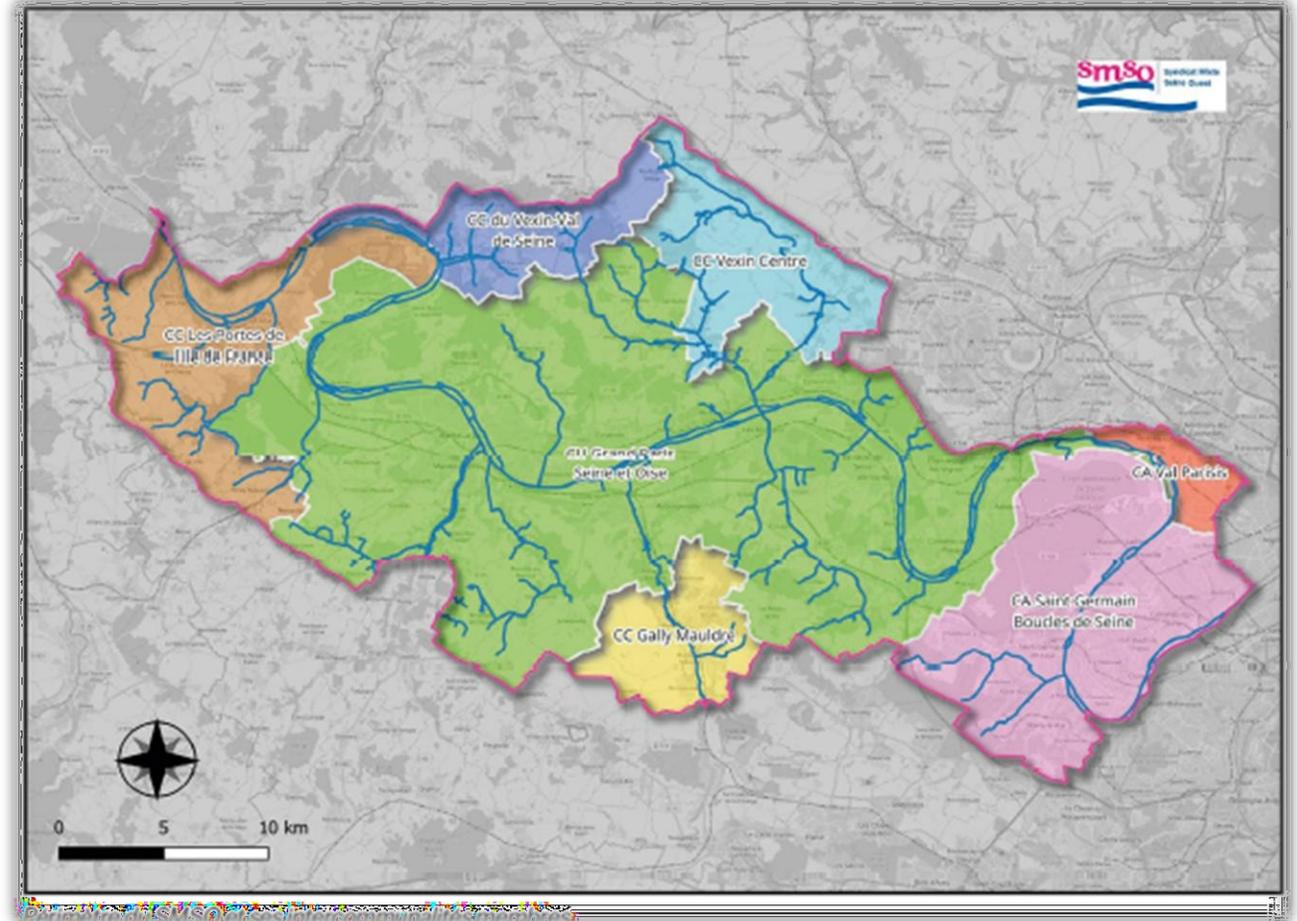

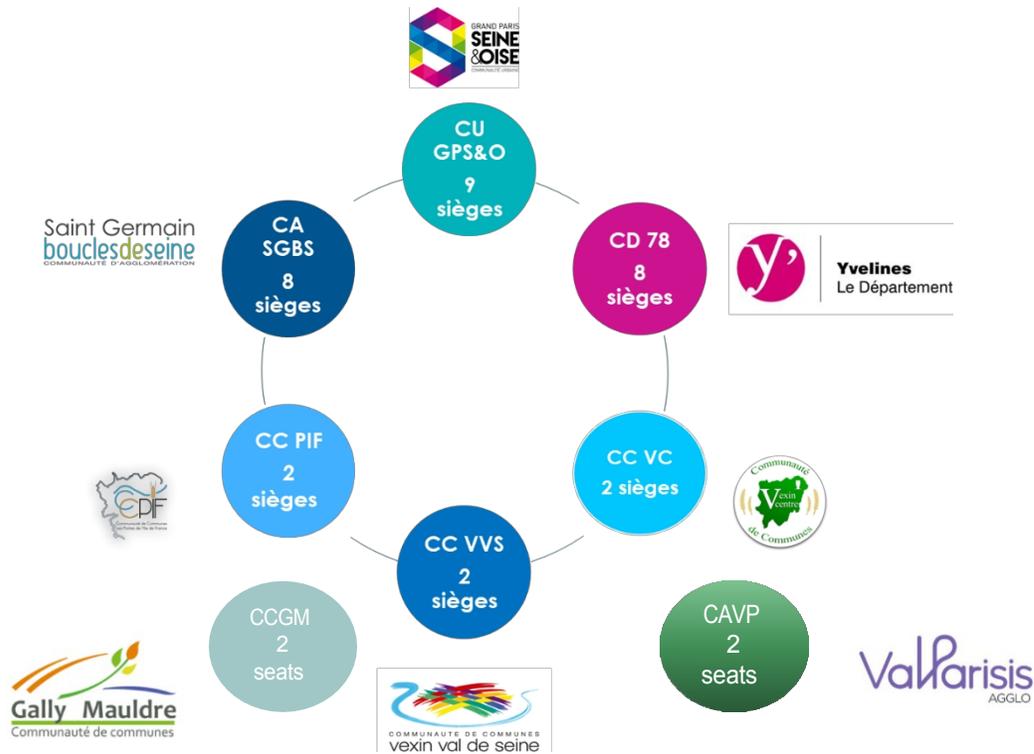

Team with expertise in
all areas of
intervention

Rôle technique

GOVERNANCE OF THE SMSO

Union committee: 33 delegates from member EPCIs

Regles de repartition des sieges (sauf CD 78)

- 2 members for 1 to 50,000 inhabitants
- 1 additional member per 50,000 inhabitants

2. FINANCING OF THE SMSO: OPERATING AND INVESTMENT

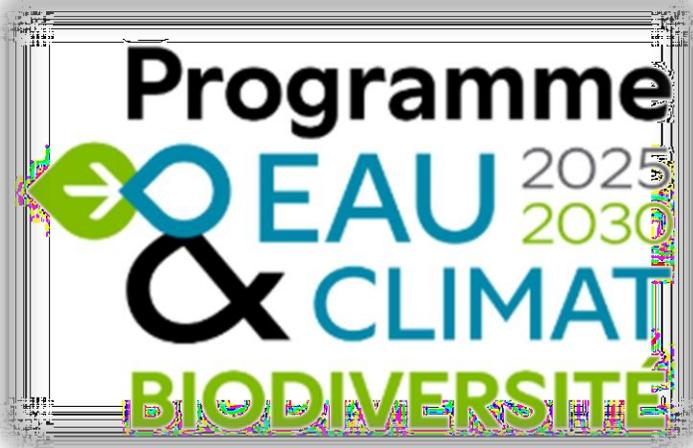

THESE ARE DEFINED BY THE STATUTES:

- "STRUCTURAL" COSTS: PARTICIPATION OF MEMBER EPCIS BASED ON THEIR POPULATION.
- CONTRIBUTIONS TO OPERATIONS: GEMAPI TAX + SUBSIDIES

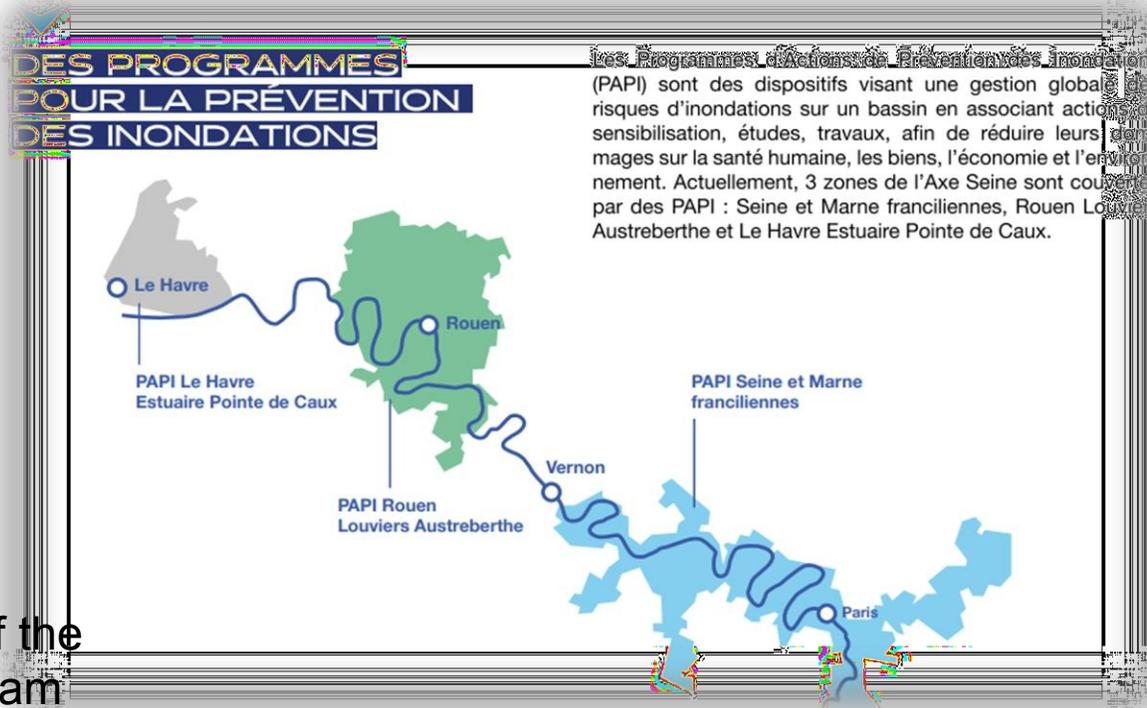

MANAGEMENT TOOLS AND FINANCING

S'inscrire dans des démarches contractuelles : PAPI

The objective is to ensure the hydraulic consistency of the intervention programs carried out, upstream-downstream solidarity, and right bank-left bank solidarity.

**Visibility and control of financing = MULTI-YEAR INVESTMENT PLAN
approach with each member
MULTI-YEAR INVESTMENT APPROACH with each member**

GEMAPI FINANCING

GEMAPI missions can be financed directly from the general budget of EPCI-FPs or through an optional tax, capped at €40 per inhabitant and dedicated solely to GEMAPI.

This tax is spread across the four local taxes:

- housing tax for second homes,
- property taxes on built and unbuilt properties,
- and the business property tax.

It will represent an average cost per inhabitant that varies from one tax household to another (depending on the municipal tax base of each household).

The proceeds from this tax will be used exclusively to finance GEMAPI

OTHER FINANCIAL LEVERS: SUBSIDIES

Les Agences de l'Eau:

- Etablissement public administratif favorisant une gestion équilibrée et économe de la ressource en eau et des milieux aquatiques, l'alimentation en eau potable, la régulation des crues et le développement durable des activités économiques.
- **1,8 milliard d'euros/an** de recettes fiscales environnementales perçues auprès des usagers de l'eau principalement via la facture d'eau des abonnés domestiques.

Les subventions des agences de l'eau sont à l'heure actuelle mobilisables sur des questions de qualité de l'eau et de prévention des inondations fluviales et aucune subvention n'est donc pour l'instant consentie par ces dernières au titre de la submersion marine et des ouvrages de défense contre la mer.

Le Fonds Barrier ou Fonds de prévention des risques naturels majeurs :

- Est mobilisable sous forme de subventions uniquement dans le cadre des études et travaux définis dans un programme d'actions et de prévention des inondations

European Regional Development Fund (ERDF)
